

Dagger of Shine

Version 2.1 · by Ryota Yashima

(Edited by Samuel J. Wood in 2026)

This is the sequel to City of Port Hyrtin.

Word has reached Queen Emma of trouble on the Kingdom's eastern frontier, and she has sent you to investigate. Your long road from Port Hyrtin ends at last in the quiet valley village of Easmore. A peaceful place, though not for long.

A village girl named Clara has vanished. It's likely that she has fallen into the hands of the pirates who now infest nearby Salevo. Once a flourishing port city, Salevo has been utterly consumed by crime since the pirates arrived a year ago. Its people have been driven out, and its temples and shops left in ruin. Rescuing Clara means marching straight into the pirates' stronghold.

But Clara's plight is only the first loose thread in a tapestry that is far darker than you had expected when you answered Queen Emma's call for help.
